DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: None of the references of record teaches or suggests the claimed method and apparatus of bridging optical signals in an optical network equipment comprising the steps of : receiving an optical signal; splitting the optical signal into at least two similar optical signals; processing the at least two similar optical signals in the optical network equipment (optical cross connect); and selecting one of at least two outputs of the optical network equipment that has a resultant optical output signal responsive to the processing of one of the two similar optical signals in the optical network. The optical network can include first and second optical switch fabrics, optical-electrical converters, optical-electrical-optical converters and multiplexer. These limitations are recited in claims 32-50 and 75—93 and are considered to be patentable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian M. Healy whose telephone number is (571)272-2347. The examiner can normally be reached on Compressed schedule Tues-Thurs. 7AM-4:30PM.
